A Little Politics
Poor Fleeting Lamb
Gen. Motors' New Record
So Many Mysteries

BY ARTHUR BRISBANE
GOVERNOR RITCHIE of Maryland
withdraws in favor of Governor
Smith and harmony. But Senator Reed
of Missouri will stick as a candidate
unless he can bar Smith."

Practical politicians think that he
cannot. They predict at Houston a re-
session of the Kansas City program.
As presidential candidate, Governor
Smith, nominated on the first ballot,
and vice presidential candidate, pleas-
ing to farmers, nominated with one
ballot immediately afterward.

NEW low prices in the stock market
yesterday. Many little lambs went
home and left their fleece behind them.
Those too weak to hold stocks threw
them overboard. Strong men pick them
up, and there will be another start in
the prosperity market.

This is how it usually is.

CALIFORNIA, a heavy lever in the
collapse of Bancitlly stock, may
find comfort in the real estate gains.
Concentrating on stock speculation,
Californians have neglected California's
real property. REAL ESTATE. Many
realize that a piece of solid earth
is safer than a piece of nicely
printed paper.

J. F. KNUDSEN, Chevrolet presi-
dent, offers cheerful news on Gen-
eral Motors. In May his company
brought out 140,700 Chevrolet cars. On
May 28, the product was
200,000 finished cars and trucks. May
29, 25,000 cars ahead of May.

WHAT good production, but high
General Motors officials should
keep in mind that the machinery is
in their brains is more valuable than any
other asset of General Motors. Men
like President Sloan of General Motors
and Raskob, head of General Motors
Finance, work themselves as they
wouldn't work any piece of machinery.
They take the night train from New
York to Detroit, begin work there at
6 o'clock in the morning, work through
the whole day, eating sandwiches at
noon, still working, and take the night
train back to New York.
No machine can stand that, and no
man to stockholders butides it.

MR. WALSH of Fordham Univer-
sity, tells young men: "The world
is confronted with more mysteries than
ever before. Science solves only a few
problems."

In, indeed. Why does the hydrogen
atom have a single proton in the center,
of a single electron revolving around
it? Why does the helium atom, first
detected on the sun through the spec-
trope, have four nuclei with two
electrons revolving around them, and
does the formation of four grams
of helium with hydrogen produce energy
as great as though eighty tons of coal
were burned? Here are some mysteries

to you.

EVERYTHING is a mystery if you
are far enough into it. And the
mystery of all mysteries is thought,
which has no proton or electron, so far
as we know and is driven by an energy
that has no more practical name than
"evil" or "sin."

\$20,000 prize is offered for the best
ending to Schubert's "Unfinished
Symphony." It won't be worth \$20,000.

To think Schubert's symphony you
will have to be Schubert. To restore
arms to the Venus di Milo, or to
have the winged Victory joined
before she got into that fight, would
require the brain and the feeling
of the artist that made the statue.

Everyone about Edwin J. Ford,
ridiculed when a red light
dipped his cap at a crowded New York
theatre, was by profession a bank rob-
ber, a professional bandit and bootlegger,
according to detectives. They are not
sure whether he was killed for "quar-
rel" or whether his death was due to
bootlegging fees, a quarrel among
pimpers, or a row over a woman.
He is sure to be one of those complices,
say the detectives.

THE White Star Co. is building a
ship to be 1,000 feet long, 100 feet
wide, costing thirty millions.
The ship in which Columbus crossed
the Atlantic was built as a life boat.
It will be the biggest ship in the
old and Americas who like "biggest"
will travel on it.

OHIO SUPREME COURT ORDERS REMUS FREED

Declares Wife-Slayer Is Sane,
Upholding Appellate Court
Ruling

VOTE IS 4 TO 3

Judges Marshall, Day and Al-
lon Against Former Boot-
logger's Release

Lima, June 20—George Remus,
self-confessed slayer of his wife,
Augusta Imogene Holmes Remus,
former bootleg king walked out of
the Lima State Hospital for the
criminally insane at 1:45 p. m., to-
day a free man.

Remus was liberated after the
State Supreme Court sustained
the Allen County Appellate Court
which ruled that Remus was being
illegally kept a prisoner.

Columbus, June 20—Declaring that
George Remus, alleged wife murderer,
is sane, the Ohio State Supreme Court
today ordered the immediate release of
the former bootleg king from the Lima
State Hospital for the Criminally In-
sane.

Remus had been a prisoner in the
Lima Insane Asylum since his trial at

Cincinnati, when a
jury found him
not guilty of the
murder of his wife,

Imogene Holmes Remus,
on the ground of insanity. During the trial
state attorneys had declared that Remus
was not in sane, but the trial
judge in charging the jury declared
that the only not guilty verdict com-
patible would be on the grounds of
insanity.

Immediately upon Remus' arrival at
Lima his attorneys brought habeas
corpus proceedings and attempted to
show that the former bootleg million-
aire was sane as state attorneys had
testified during the murder trial.

Votes Four-to-Three

In ordering the release of Remus the
supreme court voted four-to-three to
affirm the judgment of the Allen County
Court of Appeals, which several
weeks ago, acting upon habeas corpus
proceedings, ruled that Remus was
sane and ordered his release.

Following the decision of the Allen
County court, the Supreme Court issued
an injunction on the application of
Attorney General Turner of Ohio, which
held Remus a prisoner in the asylum
until today's decision.

Mrs. Remus was shot Oct. 6 in Cin-
cinnati, while enroute to the Court of
Domestic Relations where the Remus
divorce petition was to be heard.

SIX BANDITS STAGE MAIL TRAIN HOLDUP

Get \$100,000 From Car At-
tached to Canadian National
Railway Train

Toronto, June 20—A mail train robbery
here netted at least \$100,000 was
staged here early today by six bandits
armed with sawed-off shotguns. The
gunmen entered a mail car attached to

a Chicago-bound train of the
Canadian National Railway, covered
three mail clerks and escaped in a high-
powered automobile with three mail
pouches containing cash and registered
mail.

The robbers drove their automobile
through an empty train shed about five
minutes before train time, leaped into
the car before the clerks suspected
their presence and were off again within
a few minutes.

In the meantime another mail clerk on
the platform, witnessing the holdup,
rushed to a phone and called police.
The police arrived just as the
gunmen's car disappeared around a cor-
ner a few blocks away. A chase ens-
ued but the bandits eluded capture.

In their hurry to get away, it was
reported that the bandits overboarded
mail valued at a half million dollars.

Political Parties

Washington, June 20—A six year
campaign to control editorial opinion of
Missouri newspapers through advertising
subsidies was disclosed by J. P.

Public Utilities Information Bureau
before the Federal Trade Commission

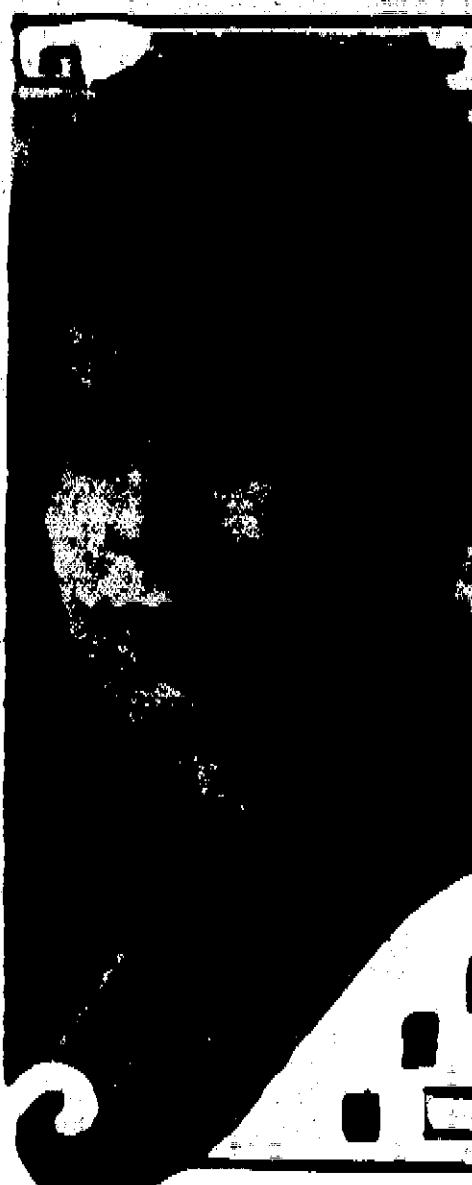

With obvious reluctance Ferguson
admitted under sharp questioning that
he had established the policy of alerting
public utilities advertising to the
state governments on the basis of the
extent to which they reflected power
plant views to editorial and press
columns.

SECRET IS OUT

TWO CONCERN AFFECTED BY RATE RULINGS

Supreme Court Refuses to Ap-
prove C. D. & M. Schedule
For Alloy Company

SUSTAINS SHOVEL LIST

Negotiations Reported Under
Way to Settle Furnace
Power Question

Two decisions of the Ohio Supreme
Court today affected Marion industry.
In one decision the court rejected
the appeal of the Marion Steam Shovel
Co. from the judgment of the District
Court of Appeals at Lima, favoring
the Columbus, Delaware & Marion
Electric Co.

The Steam Shovel company appealed
to the Supreme Court when the Appel-
late Court held that the electric com-
pany's interpretation of the outage
clause in a power contract was the
proper interpretation. Officials of the
shovel company held that a clause in
the contract which entitled the com-
pany to a credit of two-thirds of the
power bill for the current month
was to apply each time the power shut
off, even though it was only for a few
minutes. The electric company inter-
preted the clause to mean that the
credit was due when power was off for
one day.

In deciding in favor of the electric
company, the Court of Appeals upheld
the decision of Judge George H. Bedford
of the Marion County Common Pleas
Court.

Rules Against C. D. & M. Co.

In the other decision the Supreme
Court ruled against the Columbus, Dela-
ware & Marion Electric Co. in its dis-
pute over power rates with the Alloy
Cast Steel Co.

The case went to the Supreme Court
on an appeal filed by the electric com-
pany against the order of the State
Utilities Commission which disapproved
the schedule by which electric power
was to be furnished by the Alloy Cast Steel
Co. The action of the commission in
disapproving the schedule was taken last
Feb. 21. The schedule was filed Jan.
12.

Prior to the commission's order a protest
to the proposed rates was filed by the
steel company.

For several weeks negotiations have
been under way to settle the furnace
power question in a manner that would
be satisfactory to the C. D. & M. Elec-
tric Co. and to the Alloy Steel Co.

Only the night shift of 25 men were

Yesterday morning's session, which
opened at 9 o'clock adjourned until 11

mittees were given. The conference then

The fight over the nomination, what
there will be, doesn't worry them.

They are confident of a nomination
within two or three ballots, but the
fight over the platform promises, even
at this early date, to be sharper and
perhaps embarrassing.

The prohibition plank promises to furnish
the chief bone of contention. There are quite a
few southern Democrats who are re-
signed to Smith's nomination, but they
are not resigned to the adoption of a
"wet platform" or anything remotely
approaching it.

Also Wins Big Planks

On the contrary, while they may
reluctantly accept the seeming inevi-
tability of nominating a wet candidate
they are militantly determined that he
will have to stand upon a dry platform.

The Republicans at Kansas City last
week are causing the supporters of Gov.
Al Smith a good deal more worry than
the nomination itself. The nomination, they
believe, is already as certain as
anything can be in politics. They are
under no such illusions, however, con-
cerning the platform.

Houston, Tex., June 20.—The plat-

for comparison with that adopted by
the Republicans at Kansas City last

Al Smith a good deal more worry than
the nomination itself. The nomination, they

All-Day Meeting

Planned by Club

Mrs. Rolland Fritz, 206 Bongean, was hostess to members of the We Ten Club when they met yesterday afternoon at her home. Rosebuds and peonies decorated the rooms. All members but one responded to the roll call and the afternoon was spent with contests. First award was won by Mrs. Edward Meredith, and the consolation award by Mrs. Francis Schill. During the business meeting it was voted to hold an all-day meeting Wednesday, June 27, at the home of Mrs. Walter Nougy, Oakleaf. The time will be spent with quilting and a covered dish dinner served at noon. A luncheon was served by Mrs. Fritz.

The home was decorated in baskets of pink and white cut flowers. The bride wore a frock of rose tissue and large picture hat to harmonize and carried a bouquet of bride's roses and sweet peas. Mr. and Mrs. Alfred Winter, brother-in-law and sister of the bride, were the attendants. Mrs. Winter's dress was of changeable taffeta and her flowers were spathiphyllum roses and daisies in an arm bouquet. Little Misses Carmella Tuttle and Norma Jean Nease served as flower girls. The wedding march from "Love Me" in contests were won by Mrs. E. E. Perry and Mrs. J. T. Barger. Mrs. Frank Harold and Mrs. E. E. Perry were consoled. Mrs. Mayer was presented a gift from the class. Refreshments were served by the hostess, assisted by her daughter, Mildred.

Hemorrhoids Disappear

All the misery banished without
Cutting or Sutures

External treatments seldom banish piles and for the very good reason that the cause is inside—bad circulation in affected parts veins are flabby and bowel walls weakened.

To quickly and safely rid yourself of piles you must free the circulation and fresh, healthy blood to the raw, sensitive membranes. Internal treatment is one safe method. Ointments and other external treatments can't give lasting relief.

J. B. Leonhardt, M. D., a specialist, set at work some years ago to find a real internal remedy for piles. He succeeded. He named his prescription HEM-HOID, and it has proven successful in thousands of cases—so successful that now HEM-HOID is sold by druggists under a money back guarantee. It is a harmless tablet, easy to take, and can always be found at Henry & Cooper, who will promptly refund the purchase price if you are dissatisfied.—Adv.

Woman Seriously Injured Property Damage Heavy as Storm Strikes Wilmington

Score of Houses Wrecked by Wind and Lightning: Loss
Expected to Reach \$35,000; Streets in City
Blocked by Trees

Wilmington, June 29—More than a reported burned to the ground after scores of houses are wrecked or damaged at Burtonton and one at Cuba were injured here today as a result of a severe wind and electrical storm which struck the city and country nearby late yesterday. Damage is estimated by city officials at \$35,000.

Mrs. R. E. Rayburn, wife of a restaurant proprietor, suffered cuts and bruises and may lose the sight of one eye. She was struck by broken glass and flying debris. Several others were reported slightly injured.

Three houses were struck by lightning. The home of Markey Erie, New Autrich, four miles east of here, was

burned to the ground.

Practically every street in the city was blocked by fallen trees. Several trees on the Wilmington College campus were uprooted.

Buildings Burned and Cattle Killed in
Athens County

Athens, June 29—Northern Athens

County suffered from a heavy wind and rain storm which struck late yesterday according to reports here today. Four buildings were burned, several cattle

were killed and telephone and telegraph communication was hampered by lightning and wind.

Glouster, Chauncey and Trimble were reported to be hardest hit by the storm.

Four buildings, two of them residences were burned in Chauncey, when struck by lightning.

Cattle were killed and small streams reported swollen at Amherst. Wires

Akron Semi-Pro Team Booked By Eagles For Game Here COLORED NINE IS ALSO SCHEDULED

Barker Bros. to Meet Eagles at Lincoln Park Sunday; Kappas and Butler Clothiers Play Preliminary Fray

Two great baseball teams will be club in an effort to bring home a victory over the Eagles. His hurling has been a major factor in the record of the Barker brothers.

Sunday the Barker Bros. nine of Akron will take on the local aggregation at Lincoln Park and the following Sunday the Florida Cuban Giants will be seen in action here.

These two aggregations will give Manager Bacon of the Eagles something to think about. Several changes in his lineup of the Marion horsehide chasers are being expected by fans here. It is likely that a new right fielder will be seen in one of the contests as the hitting and fielding of Sailor Sharrock has been almost nil.

Average Softer

The balance of the team seems to be hitting along at a fair speed with the hitting averages still suffering somewhat. Fielding has improved considerably since the early season games and a few errorless contests are in prospect.

Formerly known as the Akron Semi-Pros, the Barker Bros. nine comes to Marion with a clean slate so far this season. Their record has been unimpaired by defeat although they have played such aggregations as Lodi, Tallmadge, Cuyahoga Falls, Jerry, Medina, Barberton and Ravenna.

Turk To Start

A big league pitcher, Turk, will be called on the mound by the Akron

SELECT FIVE TO RUN MARATHON FOR U. S.

Robertson Names Ray, Dohler, Michelson, Agoe and Frick on Squad

New York, June 20—Five of the men who will represent the United States in the marathon run at the Olympic Games have been named by Lawson Robertson, head Olympic coach. They are Joe W. Ray, Clarence De Mar, Albert "Whitey" Michelson, William Agoe and Harvey Frick. Only one more place remains to be filled, and the lucky man will not be known until the next executive session of the American Olympic Committee in this city.

Turk won the Long Beach marathon and De Mar captured the Boston marathon. Agoe and Frick ran second in the Baltimore to Laurel marathon, the stiffest course in the United States. Michelson finished second in the Long Beach marathon.

BUFFALO NICKEL
NOW WORTH MORE

It buys a finer five-cent cigar than You Ever Smoked Before

You sir, there's a premium value in buffalo (or any other) nickels if you measure them with Hercules Ribbon cigars. You'll say Hercules Ribbon really belongs in a higher-priced class. How so? Hercules Ribbon is made from tobacco usually used only in better grades of cigars. No bitter, underripe top leaves. No flat-tasting overripe bottom leaves. No "scraps" or short ends to crumble in your mouth. But only long, flavor-filled, medium-sized, fully-ripened middle leaves from choice tobacco plants. Modern manufacturing methods and large production have made it possible.

If you need any further urge to try this remarkable cigar, we'll make you this guarantee: If Hercules Ribbon isn't the finest-tasting, biggest-value, five-cent cigar you ever smoked, you can have your trial nickel back. Also sold in Practical Packet Packages of five cigars.

UNDEFEATED TEAMS TO FIGHT FOR TITLE

Elks and Dodgers Will Seek Marion Amateur Championship Saturday

With the amateur championship of Marion still an undecided point, the final round of the American Legion baseball tournament here will be played Saturday afternoon with two undefeated teams vying for League honors.

Considerable speculation has been going the rounds since the Elks and Dodgers joined as possible contenders for the Marion title. Each team has made an impressive record. In some quarters the Dodgers are being pointed out as the coming champions while the Elks do not lack enthusiastic backers.

In the second game, the Knights of Columbus nine will face the Willets. Both games will be played at Lincoln Park, the first starting at 1:30 o'clock.

OBITUARY

Lillian Mae, youngest child of Ross F. and Trilla A. (Fulton) Knapp, was born near Marion, Ohio, Dec. 19, 1922, and departed this life at her home in Edison, Ohio, June 13, 1928, aged 5 years, 6 months and 8 days.

She leaves to mourn her sudden and untimely death, the father and mother, one brother, James A., and one sister, Grace L., both at home. Besides those there is a host of relatives and friends who feel their share of the sad bereavement.

Lillian was a child of loving disposition, and beloved by all who knew her. She was a faithful attendant Sunday School, and had learned to know and love her Maker.

A precious jewel in the home.

The world is very empty now, Since Lillian went away And Oh! How hours how long they are How many to a day!

The house is very silent now It used to fairly sing There is a sort of heavy still Laid over every thing.

Dearest Lillian those has left us Left us here for ever more But we want to meet thee On that bright and happy shore

tor of Epworth M. E. Church, will obituary and burial will be in Marion Cemetery.

Mrs. White resided in Marion for 32 years, going to Mansfield to make her home about a year ago. She was born in Hagerstown, Md., in 1864, and was the daughter of James and Elizabeth Nickerson, both of whom preceded her in death. She was a member of Epworth M. E. Church.

Surviving her are her husband, Jacob F. White of Mansfield, a daughter, Mrs. Reba Cowgill, N. State St., three sons, Alab White of Fort Wayne, Ind.,

Archie White, 208 S. Grandav., and Warren White, at home in Mansfield. A brother, William Nickerson of Toledo, 14 grandchildren and one great-grandchild. A daughter and son preceded her in death.

Rev. F. P. George delivered the

memorial address, and singing was in charge of the Community Church Chorus. The opening invocation was given by Thomas Clay, and the closing intercession by George Lower. Andrew Kull, chairman of the memorial committee, was in charge. Visitors from tribes in Upper Sandusky and Detroit were present. June 26 the

Memorial Service will be held at 10 a.m. at the church. The service will be held in regular meeting.

A Little Politics
Poor Fleeting Lambs
Gen. Motors' New Record
So Many Mysteries

BY ARTHUR BRISBANE
GOVERNOR RITCHIE of Maryland
withdraws in favor of Governor Smith and harmony. But Senator Reed of Missouri will stick as a candidate unless he "can bar Smith."

Practical politicians think that he cannot. They predict at Houston a reversion of the Kansas City program. His presidential candidate, Governor Smith, nominated on the first ballot, and vice presidential candidate, pleasing to farmers, nominated with one ballot immediately afterward.

NEW low prices in the stock market yesterday. Many little lambs went home and left their fleece behind them. Those too weak to hold stocks throw them overboard. Strong men pick them up, and there will be another start in the prosperity market.

That is how it usually is.

CALIFORNIA, a heavy bear in the collapse of Bancitl's stock, may find comfort in the real estate gains. Generating on stock speculation, Californians have neglected California's best, REAL ESTATE. Many still realize that a piece of solid earth under property than a piece of nicely papered pie.

J. F. KNUDSEN, Chevrolet president, offers cheerful news on General Motors. In May his company sold 140,700 Chevrolet cars. On Friday, May 28, the product was 205 finished cars and trucks. May 28, 25,000 cars ahead of May 27.

WHAT'S good production, but high general Motors officials should bear in mind that the machinery in their brains is more valuable than any asset of General Motors.

Mr. President Sloan of General Motors and Raskob, head of General Motors finance, work themselves as they didn't work any piece of machinery. They take the night train from New York to Detroit, break work there at 10 o'clock in the morning, work through to wide day, eating sandwiches at noon, still working, and take the night train back to New York.

No machine can stand 'em, and no one to stockholders justifies it.

MR. WALSH of Fordham University city, tells young men: "When I am confronted with more mysteries than ever before, Science solves only a few problems."

In fact, why does the hydrogen gas have a single proton in the center of a single electron revolving around it? Why does the helium atom, first entered on the sun through the spectrum, have four nuclei with two electrons revolving around them, and does the formation of four grams of hydrogen produce energy as great as though eighty tons of coal were burned? Here are some mysteries.

EVERYTHING is a mystery if you go far enough into it. And the source of all mysteries is thought, which has no proton or electron, so far as we know and is driven by an energy that has no more practical name than "will" or "mild."

\$20,000 prize is offered for the best ending to Schubert's "Unfinished Symphony." It won't be worth \$20,000. To make Schubert's symphony you would have to be Schubert. To restore drama to the Venus di Milo, or to show how the Winged Victory looked before she got into that tight, you would require the brain and the feeling of the artist that made the statue. Every mind ever born is absolutely different from every other.

You read about Edwin J. George, railroaded with bullets when a red light stopped his car at a crowded New York crossing.

George was by profession a bank robber, postoffice bandit and bootlegger, according to detectives. They are not sure whether he was killed for "equity" or whether his death was due to bootlegging greed, a quarrel among gamblers, or a row over a woman. It is sure to be one of those complications, say the experts.

THE White Star Co. is building a ship to 1,000 feet long, 100 feet wide, costing thirty millions.

The ship in which Columbus crossed the Atlantic came out from the deck of the White Star steamer as a life boat. This will be the biggest ship in the world, and Americans who like "biggest" will travel on it.

Judges Marshall, Day and Allen Against Former Boot-legger's Release

Lima, June 20—George Remus, self-confessed slayer of his wife, Auguste Imagine Holmes Remus, former bootleg king walked out of the Lima State Hospital for the criminally insane at 1:45 p.m. to-day a free man.

Remus was liberated after the State Supreme Court sustained the Allen County Appellate Court which ruled that Remus was being illegally kept a prisoner.

Columbus, June 20—Declaring that George Remus, alleged wife murderer, is sane, the Ohio State Supreme Court today ordered the immediate release of the former bootleg king from the Lima State Hospital for the Criminally Insane.

Remus had been a prisoner in the Lima Insane Asylum since his trial at Cincinnati, when a jury found him not guilty of the murder of his wife, Imogene Holmes Remus, on the ground of insanity. During the trial state attorneys had declared that Remus was not in sane, but the trial judge in charge of the jury declared that the only not guilty verdict possible would be on the grounds of insanity.

Immediately upon Remus' arrival at Lima his attorneys brought habeas corpus proceedings and attempted to show that the former bootleg millionaire was sane as state attorneys had testified during the murder trial.

Twenty-four-to-three

In ordering the release of Remus the supreme court voted four-to-three to affirm the judgment of the Allen County Court of Appeals which several weeks ago, acting upon habeas corpus proceedings, ruled that Remus was sane and ordered his release.

Following the decision of the Allen County court, the Supreme Court issued an injunction on the application of Attorney General Turner of Ohio, which held Remus a prisoner in the asylum until today's decision.

Mr. Remus was shot Oct. 6 in Cincinnati, while enroute to the Court of Domestic Relations where the Remus divorce petition was to be heard. Immediately after the shooting Re-

SIX BANDITS STAGE MAIL TRAIN HOLDUP

Get \$100,000 From Car Attached to Canadian National Railway Train

Toronto, June 20—A mail train robbery which netted at least \$100,000 was staged here early today by six bandits armed with sawed-off shotguns. The robbers entered a mail car attached to a Chicago-bound train of the Canadian National Railway, covered three mail clerks and escaped in a high-powered automobile with three mail pouches containing cash and registered mail.

The robbers drove their automobile through an empty train shed about five minutes before train time. Seized to the car before the clerks suspected their presence and were off again within a few minutes.

In the meantime another mail clerk on the platform, witnessing the daring holdup, rushed to a phone and called police. The police arrived just as the gang's car disappeared around a corner a few blocks away. A chase ensued but the bandits eluded capture.

In their hurry to get away, it was reported that the bandits overhauled mail valued at a half million dollars.

Smith Forces Out to Put Al Over on First Ballot; Open Houston Quarters

Prevailing Opinion Among Backers of New York Governor Is That Cordell Hull of Tennessee Is Man for Vice Presidential Nomination

Houston, Texas, June 20—Confident that Gov. Al Smith will be the Democratic party's choice for the presidential nomination at the national convention which gets under way next week, the forces behind the New York executive today were mapping a drive which they hope will bring him victory on the

first ballot. Details of this drive will be worked out as soon as George R. Van Namee, generalissimo of the Smith forces arrives here some time late today.

Although the convention is nearly a week away, the Smith people intend to knock down to hard work immediately. They want to get this city so filled with Smith enthusiasm that when the delegates arrive on the scene early next week they will get the impression that all that they will have to do is to have a good time, listen to the reading of a

Like To See Al

The Smith people realize that there is some strong opposition to the New York governor in several of the southern states but they have a feeling that this will be gradually ironed out before the first roll call is taken. Should this continue, however, it seems fairly certain that the Smith people may throw their strength to Hull for vice president as the best means of cementing the feeling between the northern and southern Democracy.

Norman E. Mack of Buffalo, national committee man; George C. Norton, New York attorney and Howard Culman of New York, port authority, are scheduled to arrive with Van Namee. A score of rooms at the Rice Hotel will be opened immediately as Smith's headquarters and the drive to put the New York governor over on the first ballot will be formally launched.

Houston is disappointed that Governor Smith will not personally attend the big show. From the conversation heard on the streets and in the hotels it is evident that the average Texan would like to get a look at the man who has smashed all gubernatorial records in the Empire State.

No man is offended by being called aristocratic.

55 MILLION RUBBER TREES

WHAT OF IT? Granted that Dunlop does require all the rubber that 55,000,000 rubber trees can supply . . . What difference does that make to my car?"

Simply this: Dunlop tires must be better tires. Otherwise Dunlop could never have grown so great. Otherwise there could not be 26,000,000 Dunlop tires now in use.

SEEKS TO PREVENT USE OF SLUSH FUND

Senate Committee Prepares to Keep Close Watch on Presidential Race

—

Washington, June 20—Steps to prevent the use of a huge slush fund, and whisper campaigns during the coming presidential race were taken today by the Senate Campaign Expenditures Committee, headed by Senator Steiger, Republican of Oregon, chairman.

The committee, which inquired into pre-convention campaign expenses of all presidential candidates, saw that one nomination is determined and another slated to be settled within 30 days, was cleaning up loose ends of its old investigations and preparing to keep close watch on political activities of the future.

A precedent will be set during the drives of Hoover and the Democratic choice for the presidency, in that each will be required to report regularly the amount of money spent in their campaigns.

Steiger said steps to make available all expense items of the candidate will be taken immediately after the Democratic convention and that the cooperation of the candidates and their managers would be necessary to

keep work running smoothly.

In the meantime, Steiger will go to Chicago Saturday to inquire into the source of \$40,000 said to have been used in a Wisconsin-Minnesota drive against LaFollette.

"This \$40,000 has not been charged to any candidate," the committee chief said, "and we will attempt to ascertain where it came from and how it was allotted."

The committee plans to inquire into presidential primaries also in Texas and California. Senator Bratton, Democrat of New Mexico, will go to Texas, according to tentative plans, while Steiger will conduct an investigation in California sometime in August.

Proposed visits into West Virginia, Ohio and Indiana, to clear up testimony already on the record, have been abandoned.

THIRD VICTIM

Gangland Gun Blaze Out Again in Chicago

Chicago, June 20—The assassination early today of Mike Reggi, alleged henchman of Mike Carrozza, labor leader, brought the number of gangland's victims within the past 24 hours to four.

Two other men, Joseph Palamone and John Oliveri, both known as "sky rackets," were riddled with slugs from sawed-off shot gun at "Death corner" in Little Italy late yesterday.

Palamone and Oliveri were known enemies of the powerful Al Capone gang which tried unsuccessfully a year ago to supplant Scarface Al Capone as czar of Chicago's illicit alcohol industry.

Joseph Terreni, a former police officer, now employed at the Federal Building, was shot and perhaps fatally wounded at a south side cabaret today.

MR. JAMES A. HARTSOCK

"Konjola ended the stomach trouble and nervousness I had suffered for a long time, and improved my health in general," said Mr. James A. Hartsock, 761 East Second St., Dayton, Ohio.

"Now I can eat anything on the table without a touch of indigestion. The blasting spells I used to have after every meal never come over me any more, and I don't have the pains around my heart or the heavy feeling in my stomach like I used to. My nerves are much stronger and I can sleep perfectly from the time I go to bed until I get up the next morning. This is something I couldn't do for several months before I got Konjola. My work seems to be ten times easier and I never have the tired, druggy feeling throughout the day."

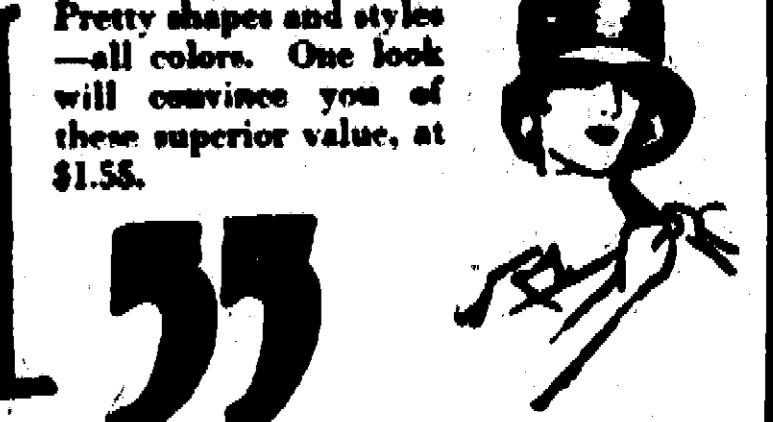

"I am glad to endorse Konjola for I know what it will do."

Konjola is different than any other known remedy in this section. It contains twenty-two juices extracted from natural plants which invigorate the stomach, liver, kidneys and bowels to a more healthy action. The effect of Konjola on the entire system brings amazing relief in cases of suffering that had been going on for years. At the same time many weak and rundown systems have been restored to a new state of health through this compound. Such a vast number of men and women in this city have told of their experience with this new medical product, and now Konjola is the most highly informed medicine that is known in this vicinity.

Konjola is strongly recommended to Marion at Stump & Sons Pharmacy, and is also being sold at all the best druggists in all towns throughout this section.—Adv.

Ritzy Rosalie

“Ritzy Rosalie”

She evidently feels that if he presents around enough Rosalie will take his picture with her new camera. It is very new in that it matches her frock in color. And when it is closed and in its case it resembles an envelope purse. The case is lined with changeable fabrics. Since these new colored cameras made very smart gifts we thought that is the way Rosalie deserved one.

REMUS HELD SAME, ORDERED RELEASED

**Ohio Supreme Court Upholds
Ruling of Appellate
Tribunal**

Continued From Page One
was due to police headquarters and
surprised.

During the murder trial which
opened Nov. 14 Remus never denied the
killing but pleaded temporary insanity.
His attorneys sought to prove
that Remus' mental condition was
poor about by his wife's infidelity
and machinations with Franklin Dodge,
former federal prohibition agent.

During the trial state attorneys had
declared Remus was sane.

Following the "not guilty on the sole
basis of insanity" verdict the jury
sent Remus to the state hospital at
Columbus, where he has been confined
since.

Remus' attorney, Charles E. Taft, II, of
Hamilton County, sought other attorneys
who testified that Remus was insane.

To Hold Mandate
The finding of the State Supreme
Court ordering the immediate release
of George Remus from the Lima State
Hospital for the Criminally Insane
does not imply that Remus will be re-
leased today; it was declared by the
chief of the Supreme Court here to-
day.

The mandate of the Supreme Court
will be mailed to the Allen County Ap-
pellate Court a week from today for
that court's consideration.

At the Appellate Court is the lower
division and had already declared
Remus sane; it is thought that Remus
will be released immediately upon the
receipt of the mandate.

Judge Allen Dissents

pointing that the evidence sub-
mitted to the Ohio Supreme Court in
the Remus case "shows no change in
the mental condition of Remus" since
last December when he was adjudged
insane at Cincinnati. Judge Florence
E. Allen wrote an opinion dissenting
from the Supreme Court's majority
on the authorizing release of Remus.
Chief Justice C. T. Marshall and
Associate Justice Robert H. Day also voted
against restoration of Remus.

James Jones, Kinkade, Robinson
and Nathan voted to affirm the Ap-
pellate Court decree. Opinions in sup-
port of the Appellate Court's action
were written by Judges Jones and Kin-
kade.

PLATFORM BIGGEST DEMOCRATIC WORRY

**Prohibition Plank Promises to
Be Chief Bone of
Contention**

Continued from Page One
try to the country on any platform
that endorses specifically the legislation
that he has denounced would
place him in an untenable and embarras-
sing position. They want a general
law enforcement plank for that is
consistent, they said, with Governor
Smith's whole public career, but
they are disturbed over the threats of
one of the more radical drys to im-
pose a plank which would com-
mit the party and its nominee to be-
 lief and support of the "moral right-
eousness of prohibition."

The phrase was used by one prominent
dry. In this situation a good
deal of attention is being given to the
position of the chairman of the plat-
form committee. The name most fre-
quently heard is that of John W.
Lyda, the party's nominee in 1924.
Lyda is a delegate-at-large from New
York and, consequently, is a Smith
supporter. He appears to be accept-
able to both the wetts and drys, and
it would cause no surprise were his
name agreed upon in advance of
the convention.

The convention which opens here
today will be the first in more than
a quarter of a century in which the
life and influence of William Jennings
Bryan will not have a dominant
part. The drys miss his leadership
for he was ever present at the post
of command in marshaling the drys
and urging them to more militant ex-
citement. Almost invariably he was
successful in keeping his party "in
the party," to use his own phrase.

TEMPTING:

For novelty and chic, a scarf tie
completes youthful neckline with turn-over collar. Wide girdle gives
tight hip effect; kilted plates at
either side of front of skirt rip-
ples at each movement of its wear-
er. Style No. 3450 follows simple
lines, with all the new style de-
tails, to slenderize the figure which
makes it very tempting for the
woman inclined to be overweight.

Printed silk crepe, georgette crepe,
faille crepe, crepe satin, sheer
woolen jersey, printed linen, silk
pique, and rayon chiffon voile are
appropriate. Pattern in sizes, 16,
18 years 30, 32, 40, 42, 44 and 46
inch bust. Pattern price 15
cents in stamp or coin (coin pre-
ferred). Our patterns are made by

Daily Proverb—"He that gets forgets, but
he that wants thinks on."

Reports from Wisconsin are to the effect
that the Brule river mosquitos are utterly de-
void of respect for the presidential dignity.

We sincerely hope our readers didn't over-
look this one by President Coolidge: "Prom-
perty is only an instrument to be used, not a
deity to be worshipped."

Somebody bobs up with the statement that
"bobbed hair doesn't make a woman bad any
more than whiskers make a man a saint."
Well say this; it sounds mighty convincing.

Here's one worth thinking over. Dr. Arthur
Twining Hadley says that "It is not from
materialism that our democracy is in danger
so much as from misguided idealism." Isn't
it the absolute truth?

A son was born to Mr. and Mrs. Robert
Remaly, of Buck Creek, Indiana, Monday, mak-
ing a family of seventeen children, all of whom
are living. Anyway, birth control doesn't ap-
pear to have made much progress out in that
section.

Aha! We have the explanation of the short
skirts at last! Mary Buckley says that "girls
still set their caps at men—even their knee-
caps these days." How under the sun, Mary,
did you ever guess it?

Federal authorities took 200 undesirable
aliens to Ellis Island, Monday, for deportation.
Those allegedly patriotic societies given to
hatred of all things American must have been
asleep at the switch to permit such an outrage
like that on "poor, misguided aliens," many
of whom are known as criminals.

Governor Donahue was serenaded, a night or
two since, by a Texas school girl band. There's
no use of talking! You can't mix in the
muddy pool of politics without occasionally
suffering a penalty!

French Ambassador Paul Claudel says
"Americans must come to Europe to study the
past, and Europeans must come to America to
study the future." Hold those Europeans off
a bit, Paul, till we get our airport. We would
hate to have 'em come over after a statement
like that and find us without one.

"It isn't safe for a person anywhere in this
town," remarked a middle-aged woman as she
entered a Chicago candy store, and then she
demonstrated the truth of her statement by
taking a pistol out of her handbag, holding up
the propietress and making off with the con-
tents of the cash register. One can think of a
number of places having more allure as places
of residence than Chicago.

The Coolidges' Messages.

We are a trifle late in getting to the con-
gratulatory messages sent the Hoovers by the
Coolidges when the news of the nomination of
Herbert Hoover was received at the summer
White House, but the matter of time can
hardly be held in this case to be vital.

"You have been nominated for the most im-
portant position in the world. Your great
ability and your wide experience will enable
you to serve our party and our country with
marked distinction. I wish you all the suc-
cess that your heart could desire. May God
continue to bestow upon you the power to do
your duty."

That's the wire sent by the president to his
secretary of commerce. And isn't it abso-
lutely typical of Calvin Coolidge? Can not
the reader picture him writing it? Yes, we
mean writing it. Mr. Coolidge probably had
it copied, but we simply can not see him dictat-
ing it. It's a thousand-to-one shot it was
written.

And Mrs. Coolidge's message to Mrs. Hoover
read:

"The president and I send to you and yours
our love and best wishes."

And isn't that typical of Mrs. Calvin Cool-
idge? You couldn't imagine in a thousand
years that the president wrote that.

True, one is the message of the president,
and necessarily it would take different form
from that of his wife to her friend, the wife
of the nominee, but even at that each clearly
reveals its author.

It has been said that Mrs. Coolidge was
worth 1,000,000 votes to the Republican party.
We never doubted it. Her charming graces-
ness, her every characteristic, has charmed
all.

And in this connection, we wish to make a
bold prediction. If Herbert Hoover is elected
President of the United States, next November,
as we anticipate he will be, and it is given to
the Hoovers to reside in the White House un-
til the next presidential election time comes,
as we hope they will, there will be another
"First Lady of the Land" who will be worth
at least a million votes to the Republican
party. The country will know Mrs. Herbert
Hoover by that time as it today knows Mrs.
Calvin Coolidge.

Revival of Our Shipping Industry.

From both Washington and New York come
reports of revived interest in our merchant
marine, and the possibility obtrudes that the
United States, which now holds but tenth
place in the world's shipping, may again oc-
cupy the proud place which was once hers
upon the seas.

To such extent has our ship construction
fallen off that we are now building only
56,049 gross tons of shipping—just about
equal to two fair-sized vessels as ocean liners
average today—to a world total under con-
struction of 2,758,931 tons. In a word, of
the shipping under construction, that being
built in this country represents but two per
cent. Even soviet Russia has left us behind
in the matter of ship construction.

But since the enactment into law of the
Jones-White bill with its \$250,000,000 loan
fund feature and the possibility of more al-
luring contracts for the transportation of mail,
there is marked improvement in the bidding
for government-owned vessels and indications
of such a development of our merchant marine
under private ownership and operation as has
not been manifested since our flag ranked
foremost upon the seas.

Week before last the American-West Afri-
can line was sold to the Barber Steamship line
for \$2,343,806, the highest per ton price
realized by the shipping board, and the sale
of other lines is held extremely probable,
among others being sought by private interests
being the American Merchant line operating
five combined passenger and cargo vessels be-
tween New York and London, the Atlantic
line, and the Yankee line being operated
between North Atlantic ports and Ger-
many.

Nor is this all. Serious effort is being made
by the Transoceanic corporation, of which
William F. Kenny is the head, to purchase the
Leviathan and the other vessels of the United
States lines to be operated by it in anticipation
of the construction and operation of a fleet of
ocean greyhounds capable of maintaining a
four-day Atlantic service.

There was some question of the possibility
of construction of liners capable of main-
taining such a speed as would be necessary to
cross the Atlantic in four days, but all un-
certainty on this score was removed by the
wonderful trip of the aeroplane carrier, Lexington,
from San Francisco to Honolulu, last
month, when she broke all records by steam-
ing 2,212 miles in three days and thirty-four
minutes, making 630 nautical miles the first
twenty-four hours; 742, the second, and 786
nautical miles in twenty-four hours and thirty-
four minutes, an average speed of 734 miles
a day. The first day out from San Francisco
she beat the best day's run of the Mauretania
of 676 knots, which stands as the liner record
today, and tied the world record of the cruiser,
Olympia, for any kind of a vessel, of 690 miles;
the second day establishing a new world
record, which she broke the third day, making
770 miles. And her performance was accom-
plished with such seeming ease; she moved so
smoothly and apparently with so little effort;
that there is little doubt that she will be able
to reduce her mark when her machinery has
"found itself" in service.

With such a showing as this of the Lexington
for three days, the feasibility of a four-
day Atlantic service can not longer be ques-
tioned, and it is no longer possible to withhold
recognition of the fact that a new era in ocean
travel is at hand. With an American cor-
poration already organized to install such a
service and with a markedly general increased
demand for American shipping by private in-
terests, there is real justification for the hope
that the American merchant marine will in
the not-so-far-distant future attain the rank among
the merchant marines of the world that our
wealth and importance as a nation demand.

Congestion of the brain is a painful thing. It
makes itself known by headache and dizziness. In
more severe attacks there may be convulsions and
disturbance of the sight or hearing.

There are sometimes sparks and dashes of light
before the eyes. The pupils are contracted and
may be red and burning of the eyes.

You know how the ears roar and buzz if you take
a large dose of quinine. There is a similar trouble
in congestion of the brain.

In this ailment there are redness of the face, rest-
lessness and sleeplessness usually. If the victim
falls asleep there are frightful dreams, night terrors
in children, and grinding and grating of the teeth.

There is apt to be confusion of the mind. Con-
centrated thought is impossible. Irritability and
crossness are conspicuous symptoms.

All the symptoms are made worse by lying down,

because the recumbent position increases the con-
gestion of the brain. Sitting up gives some relief.

There may be congestion of the brain due to
temporary or passing causes. For instance, violent
anger may cause a rush of blood to the head. You
have seen a quick-tempered person get so red in
the face as to give the countenance a purple color.
Even the whites of the eyes become reddened. The
back of the neck and the ears allow the color.

It is dangerous to give way to anger. Young
people may not suffer materially, but if they permit
this bad habit to grow upon them, it will be a
habit to health and life in advanced age. Many a
man has died from brain hemorrhage due to over-
congestion of the brain in a fit of anger. I have
seen several cases of serious bleeding from a ruptured
vein in the retina of the eye caused by the
congestion due to anger.

The tiny blood vessels of the brain have thin and
very delicate walls. Nature has provided a reserve
wherever she builds. This means, as far as the
brain is concerned, that its blood vessels will with-
stand a reasonable degree of congestion, but under
exceptional circumstances they will give way.

There are certain heart disturbances which result
in the pumping of an excessive amount of blood
through the body and the heart suffers from con-
gestion along with the rest of the system. Any-
thing which over-stimulates the heart, like excessive
smoking, alcoholism, taking an undue amount of
strong coffee or the use of drugs may cause serious
congestion of the heart.

The interest of Mrs. James A. Stillman in
astrology and astronomy is said to have been
responsible for the renaming of Miss Theo-
rasche's plane, "The North Star." How easy
it is to be fooled. We imagined it to be her
spirit of romance.

The Turkish parliament not only plans the
disbanding of its alphabet for the one used by
us, but also proposes to substitute the Christian
Sunday for the Moslem Friday as the official
day of rest. Deny it as some may, the world
is coming closer together, not only in its
language but in its religious forms and celebra-
tions as well.

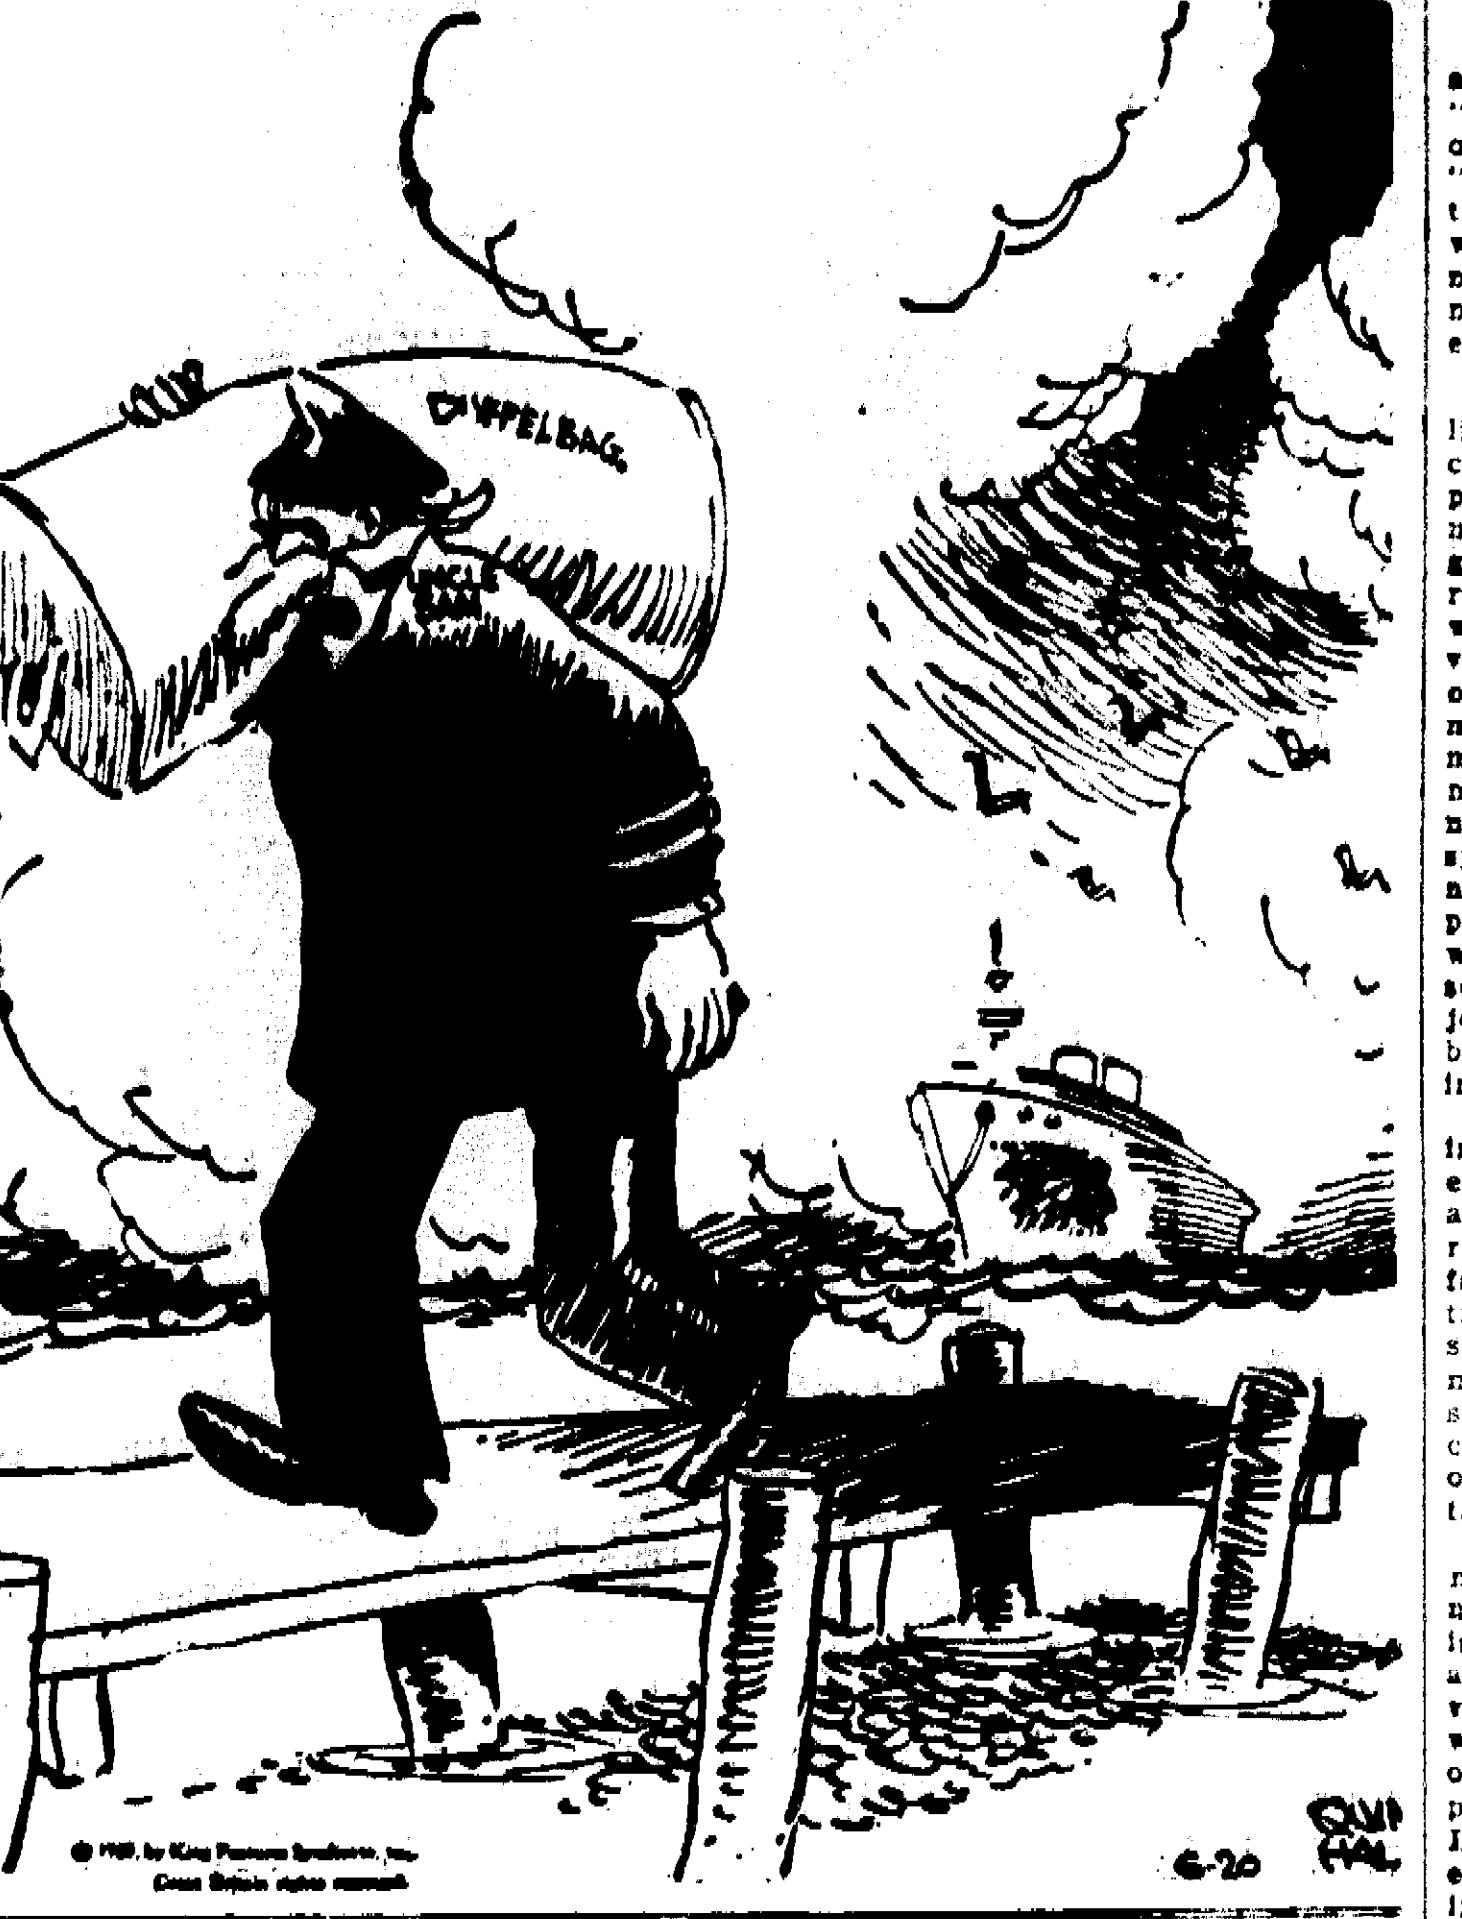

Two weeks after his arrival in this country,
an immigrant was arrested in New York City
as a bootlegger. And yet some people persist
in holding that the United States is no longer
the land of opportunity!

Coast guardmen seized an ocean-going
liner as it docked in New York, a day or two
ago, and found aboard \$100,000 worth of
champagne "at bootleg prices," from which
we assume that the actual value of the stuff
must have been fully several hundred dollars.

Bela Kun, the arch murderer who inaug-
urated the "Red terror" in Hungary in 1919
and later on served as the soviet Russian com-
missar in the Crimea, will be shipped by aero-
plane from Austria, which land he entered
on false passports, to Germany, which, in turn,
will carry him by plane to some Baltic port,
whence a Russian vessel will take him to
Leningrad. Can it be that Austria is opposed
to capital punishment?

And in this connection, we wish to make a
bold prediction. If Herbert Hoover is elected
President of the United States, next November,
as we anticipate he will be, and it is given to
the Hoovers to reside in the White House un-
til the next presidential election time comes,
as we hope they will, there will be another
"First Lady of the Land" who will be worth
at least a million votes to the Republican
party. The country will know Mrs. Herbert
Hoover by that time as it today knows Mrs.
Calvin Coolidge.

ANOTHER MARINE RETIRES.

Sleep, Magnetism, Motion.

BY GARRETTE P. SERVIA.

A young lady in New York whose name I am charged to withhold, asks me to write on "the drawing powers of the North pole on one while sleeping." In explanation she says: "Unless my bed is so situated that my head is to the north and my feet to the south, facing west, sleeping on the right side, my sleep is not sound. My relatives and friends say they never heard of such a thing, but I know from experience that I can not sleep any other way."

I have often heard of such things, but they lie on the borderline between knowledge and conjecture, where fancy holds sway. Your experience is not unprecedented, though science may not, at present, be able to explain it. A great many persons are uneasy sleepers—result, it is generally thought, of our civilized way of living. Insomnia seems to pay no visits to the couch of the happy savage. Your own explanation appears to assume that the magnetic currents of the earth play a determining part in the phenomenon. The magnetic meridians certainly do run in a generally north-and-south direction, and the nervous system certainly does respond to electro-magnetic influences from without; so it is not impossible to affirm that your idea is entirely without foundation. Still, as far as I know, scientific observations are lacking on this subject. Some of the other animals appear to be more sensitive than human beings to such influences.

I think I have heard of nervous people who insisted on sleeping with the body lying in an east-and-west direction, thus traveling while asleep either feet first or head first with the rotation of the earth. You say you have to face west, lying on the right side. When direction with regard to the points of the compass seems unimportant, physiological conditions may govern the preference for lying on right side, left side, back or face. I have known cases in which relief from sleeplessness was obtained by temporarily reversing from head to foot the position of the body in bed.

Some think that the motion of the earth has more to do with this matter than the magnetic currents. But the motion of the earth is compounded of a great many elements, among which the rotation on its axis pays a very small part. That motion carries us eastward in our latitude about 750 miles per hour, or say 1,100 feet per second. This is motion practically in a circle, 4,000 miles in diameter. But at the same time the revolution of the earth around the sun is carrying us practically in another circle \$3,000,000 miles in diameter, at a speed of 18½ miles per second, or 66,000 miles per hour.

Now these motions—and there are others not taken into account—carry us while we lie in bed, in a relatively little, but long-stretched-out spiral, twisting about another enormous spiral that is wound like the thread of a celestial screw about the line of the sun's advance, which, itself, may be yet another circle, or spiral, as vast in dimension as the width of the Milky way.

Noel Coward, the London playwright, is reported originator of tucking the handkerchief into the cuff. He found it a solution to a handkerchief-in-the-cuff idea for me spreading. As a pioneer hoofer in the watch craze and finally a victim, there is I to be sold out loud. One has to take it eventually anyway. But at this particular moment it looks gosh-awful yoo-hoo.

BIG FOUR TO BUILD BRIDGE

Improvements in Kenton to
Be Completed During Sum-
mer Months

Kenton, June 20—Extension and
lengthening of the Kohlerer overpass
bridge spanning the tracks of the Big
Four Railroad is to be completed dur-
ing the summer months as a part of
the railroad's double tracking project
through Kenton, it was revealed at a
meeting of the Kenton city council
last night.

In a petition, the railroad asked per-
mission to close a small section of
Kohlerer for a period of from 60 to 90
days during which time the improve-
ment might be completed. That re-
quest was granted.

According to present plans virtually
a new bridge of timber will replace the
present structure and its location will
be extended a short distance to the
west to accommodate the double
tracks. The new bridge surface will
be made level instead of curved as is
present.

Other overhead bridges of the Big
Four here will not be altered at pres-
ent in the improvement program. If
the four real estate agent said, how-
ever, that later new bridges may be
needed, the Big Four trestle over
the Scioto River is now being widened
to accommodate the double tracks.

Closing of Kohlerer for a temporary
period will not be affected until after
weather and materials are in place
and preparations completed for
carrying the improvement. The street
will be closed from the west line of
Kohlerer to a distance of 25 feet west
of the present bridge.

Permit last night also placed its
seal of approval on the petition of
the Big Four for permission to alter its
tracks at Elyria, Franklin, Detroit
and Toledo to permit the laying of
new double tracks.

John Perry and son, Eugene of Bridge-
way; Mr. and Mrs. W. W. Williams;
Mr. and Mrs. William Eagle; Mr. and
Mrs. Ross Eagle and son, Walter Lee;
Mr. and Mrs. Ralph Eagle and chil-
dren; Mr. and Mrs. Herman Williams
and family; Mr. and Mrs. Harry Mar-
men and family; and Mr. and Mrs.
L. W. Williams and daughter Pauline.

According to present plans virtually
a new bridge of timber will replace the
present structure and its location will
be extended a short distance to the
west to accommodate the double
tracks. The new bridge surface will
be made level instead of curved as is
present.

Other overhead bridges of the Big
Four here will not be altered at pres-
ent in the improvement program. If
the four real estate agent said, how-
ever, that later new bridges may be
needed, the Big Four trestle over
the Scioto River is now being widened
to accommodate the double tracks.

Closing of Kohlerer for a temporary
period will not be affected until after
weather and materials are in place
and preparations completed for
carrying the improvement. The street
will be closed from the west line of
Kohlerer to a distance of 25 feet west
of the present bridge.

Permit last night also placed its
seal of approval on the petition of
the Big Four for permission to alter its
tracks at Elyria, Franklin, Detroit
and Toledo to permit the laying of
new double tracks.

IDENTIFY LIMA MAN AS KENTON ROBBER

Part of Loot Located in De-
troit Shop by Sheriff

Kenton, June 20—Identification of
Cecil Hosack, 37, Lima, recently
adjudged insane and ordered confined
to the Lima State Hospital, as one
of the persons disposing of boot
goods stolen from the Trampfeller
tailor shop here, has been established
through a Detroit pawn shop owner,
according to Hardin County officials.

A major portion of the loot was
located in the Detroit shop yesterday
by Deputy Sheriff F. W. Haudenschild
and brought back. The pawn broker
identified Hosack.

In the tailor shop robbery suits and
belt cloth valued at more than \$1,000
were taken.

Hosack, who was arrested in Detroit
for a traffic law violation, has been
held by officials for questioning relative
to a series of robberies, principally of
dentists' and physicians' offices, in
Kenton, Hardin County and Lima. He
has confessed robbing the office of Dr.
R. C. McNeill here.

Recently Hosack led county officials
to a place where nine new automobile
tires, identified as those taken from a
Dola garage, were recovered. A trunk
belonging to Hosack and turned
over to Deputy Haudenschild by a sister
living in Lima, contained, it was
said, dental supplies, three bolts of
suit cloth, spark plugs, electric lamp
bulbs, etc. The trunk had been left
by Hosack at his sister's house.

Hosack was given a sanity hearing
before Probate Judge McElroy here
a week ago on petition of his sister,
Mrs. Roy Thompson, Lima. Previously
he had been held on a charge of
burglary and larceny.

Mrs. Burkhardt, of Tiffin, Ohio;
Mrs. William Bricker, of Cleveland;
Mrs. F. Crane, Revere, and Mrs. J. W.
Dowd, Bucyrus, are the main representa-
tive speakers who will be heard to
morrow.

GUARD HOOSIER'S HOME

Part of Loot Located in De-
troit Shop by Sheriff

Since the beginning of the republic it has been customary for the houses
and persons of presidential nominees and candidates to be guarded against
intrusions of night-riders and the merely curious. Here is a picture of the
home of Secretary Herbert Hoover in Washington and one of the soldiers
who will guard it constantly until election.

LOPS OFF 300

Tommy Johnson Headed for Democratic
Convention on Foot

Bucyrus, June 20—"Tommy" Clifford
Johnson, who left this city Saturday
morning on foot for Houston, Texas,
where he will be a page at the Demo-
cratic National Convention this month,
traveled the best available means of
transportation that happened to be
headed his way and when last heard from,
Monday, Tommy had tramped 300 miles of his lengthy trip.

Tommy had his route mapped out by
secretary of the Crawford County Auto-
mobile Club, M. B. Morrissey, and it
calls for his walking across at least
six states. His grip carries a good
picture of the donkey and says:
"To the Democratic National Conven-
tion."

Leather was read by Mrs. Margaret
Bates, Mrs. Gladys Summit, Mrs. Jessie
McLaughlin, Mrs. Grace Gammel, Mrs.
W. R. Allen, Mrs. Gertrude Yoho, Mrs.
J. L. Yoho, Mrs. Ross Johnson and
Mrs. W. H. Sloan. Miss Ross Summit
read a story on "The Missionary
Who Burned His Own Coffin." The
society made Mrs. L. J. Yoho a life
member. The audience seated re-
freshments.

FINE ARTS PUPILS PRESENT RECITAL

Galion Students Take Part in
Eighth Annual
Commencement

Galon, June 20—The eighth annual
commencement recital by graduates of
the Fine Arts Department of Galion
High School was given last night in the
school auditorium with pupils of Mrs.
Loren E. Bowk, expression; Miss Helen
Todd, piano; and Mrs. W. W. Koppe,
voice, appearing. Martha Auld and
Martha Carol Schaffner were the rep-
resentatives of the expression depart-
ment, the former using as her number
"Fourteen," a one-act play by Alice
Gersberg and Miss Schaffner reading
"The Unfinished Story."

Miss Elsie Mae McKelvy gave evi-
dence of the exceptional accomplish-
ments of the voice department under
Mrs. Koppe's direction, in her group of
three songs, "Deep River," "Fisher
Poppies," "Wood," and "I Know a
Lively Garden" by Pittsfield.

Theodore Schaefer and Mary Cath-
erine Horn were the two graduates in
piano and their numbers were well in-
terpreted and showed unusual talent.
Schaefer who has served as high school
pianist and organist and is one of Galion's best known musicians played
four numbers, "Sonata," "E. Minor,"
"Grieg," "Un Soprano," Liszt, Nocturne
Op. 27, No. 2; Chopin, and "Butterfly
Etude" by Chopin. He also favors
with an organ number, "Japanese Sun-
set" by Drape. Miss Horn played a
brightly Bohemian number, "Silver Stars."
An assisting performer, Miss Rita
Senett, of Crestline, appeared in both
flute and voice selections. Her instru-
mental contributions included, "Song
Op. 10, No. 1," Beethoven, and "Waltz
Op. 18," Chopin, and her vocal num-
bers were "The Answer," Terry; "The
Maiden's Lament," Schubert; and "A
Birthday," Woodman. Miss Bonet is
a pupil of Miss Todd, in piano, and
studies voice with Mrs. B. B. Smith of
Crestline, formerly of this city.
